

MIKE AND KEY AMATEUR RADIO CLUB

K 7 L E D R E L A Y

\*\*\*\*\*

September 20 busness meeting

The regular Mike and Key busness meeting was held at the meeting hall September 20, 1975. The club was presented the "-----" Trophy from the West Seattle Radio Club by John K7JPZ. This trophy is presented to various amateur radio clubs which are members of the Puget Sound Council of amateur radio clubs. If you have never seen the trophy you must come to the next meeting to see it. When the club gets the trophy the club must add some piece of electronic equipment to it then pass it on to another club. The only way to get rid of the darn thing is to have at least 3 club members attend the other club's meeting and present it.... Which club are we going to pass it on to?

The motion was made and was passed to limit the November 1 auction to participation by amateurs only.

Comments were made that there would be a demonstration and talk by Dick WA7UEW ON COMPUTERS for the october 4, 1975 activities meeting.

Comments were made that the Christmas party will be Pot Luck and would cost \$3.50 per person.

New members approved by the membership were:

- Jim Aeschilman WB7AHD who holds an advanced class licence
- Vicky Mowrey KYL of K7BNN
- Dave Munyon W7DVB who holds an advanced class licence.

Welcome to th Mike and Key Amateur radio club, We hope you enjoy us as much as we enjoy having you with us.

Discussion was held about the dues situation..making them come due on January and July, and also about raising them. A committee was formed, headed by Pete K7WTG to review Section # of the constitution and prepare the budget.

We will write W7DK, the Radio Club of Tacoma to see about the possibility of alternating the operation of the Ham,s booth at the Western Washington state fair.

\*\*\*\*\*

SANTA TALKS

We will again this year have our Santa Talks from the various hospitals and children,s homes. Time and dates are still open, but it will be late november or early December, We will use both the 6 and 2 "ACS" machines

QST QST QST QST QST QST QST QST QST

Here it comes again! The Mike & Key Amateur Radio Club is going to have another AUCTION. The big day is Saturday, November first. The place, The Boeing bear's club house at the S.E. end of the Renton Airport.... Bidding will start at 10:00 am, so load up all that valuable gear you would like to convert to CASH, and bring it out, along with your checkbook. The last AUCTION moved a fantastic amount of equipment, and over \$1200 in cash was paid out to the sellers! This one looks like it is going to be bigger than ever. As before, the CLUB will retain 10% of all sales. We ask that all items offered for sale be communications or electronics oriented. Please, no cars, furniture, etc.

Plan to get there in plenty of time to get your gear set out before the bidding starts. When you sign-in, you will be given a buyer / seller number, you will need it to either bid or sell.

All items offered for sale by one seller will be auctioned before moving to the next seller, and sellers will be taken in order of assigned number, so the quicker you sign-in, the sooner we will sell for you. All items on which you have a minimum-bid MUST be so marked plainly on the item. If you place a minimum on something, make it realistic; Don't put a \$5 tag on something you would take \$3 for, but HOPE to get \$5. We can get "all the traffic will bear" out of what you bring. Minimums will be removed, on request, but will not be reduced to a lower figure.

This is one event where everybody benefits, so DON'T MISS IT !!

SEE YOU SATURDAY NOV. 1

MIKE AND KEY NETS

Well it looks like with summer ending and the bad weather setting in we will start having a big buildup on our two club nets. Our Tuesday nite net is called by Chris WA7RJW on the 6 meter machine this is a very good time to get on and find out whats going on especially for those members who can't seem to get to the meetings so come and join us on Tuesday.... And on Sunday morning we have the 75 Meter net on 3930 KHZ... This is a good time to get together and talk up the club activities as there are lots of other Hams listening to our net and if we have a large checkin and discuss the club's activities we could be getting some new members.. The club friendship award has not been given out to anyone new for a long time so lets get on the Air and try to hand out some contacts for the club..... See you on Tuesday or Sunday I hope..... Ken....

\*\*\*\*\*

Six Meter machine

Well the six meter machine is now listening with two sets of ears.. one on cougar and one in Tacoma... Just the thing for those of us with "10 Watt" rigs.... Its working real good.... the best its ever... Hats off to Pete K7IPQ for all the time and Love that has gone into the Machine.....

AUCTION

The auction planned for November looks like it is going to be a "BIGGIE". We have had one club change their meeting as their members can attend. We have had very good publicity and from all indications we will have lots of "GOODIES". The door to the auction hall will be open at 8AM to receive the loot. We have planned the administration so, hopefully, things will move without too many problems. Now all we need is bodies. We have some, we will need more. We plan an organization meeting with all people that are helping, just after the regular club meeting on the 18th of October

A1 WA7LWP

P.S. REMINDER THE AUCTION PLACE HAS BEEN MOVED TO THE BOEING BEARS CLUB HOUSE ON THE SOUTH EAST CORNER OF THE RENTON AIRPORT!!!!

\*\*\*\*\*

WALLA WALLA HAMFEST

The Mike and Key Amateur Radio club was represented at Walla Walla by Don WA7KKB, Les WA7NXC, Ken K7YRQ, Chuck WA7EBH and Mary W7QGP.

Don, Les, and Ken drove over Friday afternoon and camped out at Fort Walla Walla Park, Mary drove over Friday and also camped on the same site and Chuck Flew over Saturday morning.

A good time was had by the 450- 500 people who attended, one of the better swap and shop were held with all kinds of equipment and parts on the block. The Ham Radio dealers were also represented from both Washington and Oregon. Good deals were the ruel of the day from them. Hats off to the Walla Walla club, W7DP for their fine Hamfest!!

SEA FAIR SALMON DERBY

For the third year, the Mike and Key Amateur radio club provided the bulk of the radio operators for the annual event. Pete K7WTG provided the necessary coordination between the communications group and the Sea fair people. For the first time communications was held on 2 meters excluslvy. WR7ACS 147.81/21 and WR7ACH 146.01/61 were used and provided good coverage for the Puget sound area.

The Highlight of the weekend was the 54 pound 13½ ounce Salmon which was caught at Point-no-point.

Mike and Key club members who participated were Pete K7WTG, Al WA7LI, Lew WA7ELI, Chuck WA7EBH, Ken K7YRQ, Dick WA7NIW, Chuck WA7RJT Tim W7KIY, Al WA7TIB, Tom WA7TBP, Dick WA7UEW. Pete was also assisted by members of the Bremerton Repeater group, Shonomish AREC group. This was a first for this type of activity on 2 meter P.M. and it seemed to work out quite well.

PUBLIC SERVICE

We have several programs in the planning stages. November and December will be busy months for our club. We will need every member for most of these programs. If you are not individually asked, its just because I don't have my head screwed on just right. SO I NOW ASK EACH INDIVIDUAL CLUB MEMBER TO PARTICIPATE. We will keep the planning stages within smaller group, after that we will probly need every member of the club. More details as plans progress.

Now that we are talking public service lets take a look at it. If you have noticed this article has said "I" or "we" How abbt you? Don T let I or we come up with all of these programs. The ARRL has been pushing public services for years, many Hams have done some great things and thats nice, how about all the other little things all of us can do? I noticed in last nites paper that the "Seattle Radio Watch" is going to patrol an elderly neighborhood on Friday and Saterdag evenings Haloweens comming. What about the neighborhood pumpkin patrol? How many of your local groups take handicapped kids on overniteers, It would be purty neat to have a radio along. These are some of the things I just sat here and thought about, how many more can you think of? Some people say they don T have the time, they have jobs, family commitments and Ect So do I..... None of us are experts on these public service things , everytime we do one, we run into different problems. None of us wants to do them all, any of us will help, just for the asking. In this ball game you learn by doing Amateur Radio needs all the publicity it can get and publicity is gotten by public service.....

THE MIKE AND KEY TVI COMMITTEE

The mike and key tvi committee has been busy the last few months Pete K7IPQ was able to help a Ham over the phone with his problem and Ken K7YRQ and Chuck WA7EBH were called out to help with a problem in Bellevue... If you know of anyone who has a probpem please let us know and maybe we can help!

\*\*\*\*\*  
Heard John WA7SLO working the Washington state QSO party from K7NCG's location, Chuck WA7EBH has a nice new HT-220 UHF hand held, mark WA7RYQ has a new MN-10 Handi-comm hand held for low band, WA7LNQ IS BURNING THE AIRWAVES ON TWO METERS WITH HIS WILSON HAND HELD and a bunch of more crystals, also a new IC-230 and AC-3p power supply, ringo ranger, He is going to install two more 11 el beams for a total of four... should be heard... Tom, WA7TBP REPORTS " all is well on the home front, and he has a new member in his band and they are looking forward to playing for us on the Christmas party. Pete K7IPQ reports he worked all over western Washington during the VHF QSO party, with ease.... EXCEPT WA7TBP.... Jay K7BNN has a nice signal from Centerville on 75 Meters... Also a good mobile signal also... Pete K7WTC, Jan WA7HWX, Bob WA7UIF and their families spent the weekend of September 13th and 14th camping out near Shelton... Sounded like they had a good time ...Clay WA7WMC has been working all kind of hours down at KSTW TV along with Arnie WA7WKT ...Heard lots of noise from the Benson hill area from Dave WA7TOM,... looks like he has moved into the new location for good ...We need a new new address Dave... Les WA7NXC is now operating from a new portable location with a new Standard hand held.... The front room couch.... Say Les. how does the horizontal antenna work on 2 meter F.M ... After a couple of cases of 807s and plate fulls of Policani type food the new Ham shack at the Policani residence is now to become occupied... Between Pete, Chris WA7RJW, Karon a couple of kid and one each dog the job is done...hope you will like all the room Pete... Some building has also been going on up in Issaquah at Ken K7YRQs house with the erection of a Out building to show all the normal type junk one seems to gather. Thanks to all the help from Don WA7KBK, Jim W7GPW and Rodger K7VZX who helped with the concrete work....

All you guys that were in the action of removing my tool box from the Truck the day of the Salmon Derby had better keep your back to the wall.....Cause I m gonna get ya for sure.....

Sorry the paper is a little late....I'll try a little harder next time.... I still need input to the paper... anything i can get... Thanks to Al for his donation this time....What about the rest of you? Nothing ever happen? ...Lets get hot, rember this is your Paper not just mine.....

#3.

Ken.
