

Volume 35, Issue 1.. Mike & Key Amateur Radio Club -- Seattle January 2007

From the Hot Seat...

A NEW ERA BEGINS

by Sam Sullivan N7RHE, President

As we start this year many changes are occurring in our hobby. Over the years several changes have happened, none of which stopped the hobby or dumbed it down, but rather, brought new growth in numbers and technology to our craft. I'm not sure exactly when incentive licensing occurred but approximately in the middle 1950's. The hobby grew and embraced new modes like single side band, the beginning of the repeater rage, and the early data and television modes. In 1991 was the advent of the No Code Technician license. This brought new growth but also the challenge of 'Elmering' these people as they learned operating procedures and upgrade classes.

Yes, many have upgraded and several still wish to. Now, the new era is the elimination of Morse code as a license requirement but not the end of the code mode or band plan. Elsewhere in this Relay is an article from the ARRL Club Newsletter. I hope we can nurture our members in the spirit of helping those new to the hobby as well as our current members who want to improve their operating skills and technical knowledge. I call this challenge "Dare to Be an Elmer". We all need to assist in passing the knowledge and lore, as those who proceeded us did for us.

To assist in this adventure, volunteer to Elmer someone. Help teach the upgrade classes and participate in programs and work parties. Become friends with the new people. Remember, we were new to the hobby once ourselves.

For Education ideas or to join the committee, contact Hal KE7BYN or Guy N7ZG. For the Technical committee contact Steve KD7IQL. If you have any ideas for a program or would like to present a program contact Dawn KC7YYB. To assist the Radio Officer contact Paul N7DOH. For Field Day, contact Brendan, KD7IKV or Steve, KD7IQL.

FCC EXAM INFORMATION

By Scott Robinson AG7T

The VE team had a great 2006! I want to thank each of the VEs that helped during the year. You showed the best of amateur radio. We had 125 people taking 157 elements leading to 52 Technician, 23 General, and 18 Extra class licenses awarded.

In last month's wind storm we had 8 people and 3 VEs and thus we were able to proceed with the session.

The examinees got 3 Technician, 4 General, and 1 Extra! I especially thank my fellow VEs NU6A and N7DIP for being there under very trying circumstances.

I expect a big rush for upgrades to General after the removal of CW requirements goes into effect in a couple of months. You can access the FAQ's (Frequently Asked Questions) about how it impacts examinees by using the following web link:

<http://www.arrl.org/announce/regulatory/wt05-235/> .

After the new regulations go into force, if you are a Technician and holding onto an element 3 CSCE that is within the 365 day validity window at the time of an exam session, you qualify for a paperwork upgrade to General. You still have to pay the \$14 fee, show us your government issued photo ID, original signed license, and original CSCE forms but no element examinations are required. In addition to element 3 credit, if you have element 4 credit reflected in a valid CSCE you can be upgraded directly to Extra at that exam session. - Scott AG7T

The *K7LED Relay*, published monthly, is the official newsletter of the Mike & Key Amateur Radio Club. Mike & Key ARC is an ARRL-affiliated club dedicated to the growth and betterment of Amateur Radio.

The club meets at 10 A.M. the third Saturday of every month at Salvation Army Headquarters, 720 S. Tobin Street, in Renton (near the southeast corner of Renton Airport). Anyone interested in Amateur Radio is invited to participate in the Mike & Key ARC and its activities. Annual dues are \$12 for individuals and \$18 for families.

Mike & Key Online -- Several club resources are available electronically:

On the Web — The club's site at 'www.mikeandkey.org' includes extensive information about club events: VEC testing, membership, past edition of the *Relay* and more.

Reflector — The public message board offers an easy and free way to converse with club members. To sign up, surf to: <http://groups.yahoo.com/mkarc>.

E-Relay — Want the newsletter in color and a day or two before the print edition arrives by regular mail? You will also save the club some money in printing and postage costs. To sign up, send a message to the editor: kg7ku@arrl.net.

Flea Market 2007

January FleaMarket Meeting Minutes

The January meeting was cancelled due to the region's Show Storm event. The next meeting is scheduled for Tuesday evening, February 6.

Sights & Sounds by Sunrise

by Dawn Humphrey KC7YYB, Activity Committee Chair

Well ladies and gentlemen of the airwaves, that was **some** end to the old year! Blacked-out with loss of power to much of the area for many days, causing the cancellation of many activities, such as our much ballyhooed meeting and year-end drawing.

Never fear though, your chairperson isn't going to let that hamper our start with January and the usual monthly drawing to be held PRIOR to the promised year-end goodies, so be sure to bring your \$\$ for the January drawing. Sorry, you will not be getting an extra chance on the year-end, *now*, unless you are a *new member* or *guest*, as of Dec '06. I will have a limited amount of the old year's tickets for that purpose. We will be using a different color for this year's drawings.

This year also will mark the end of this board member's run as Program and Activities Chair. It has been fun and challenging as far as running the raffles, and as before, I will be available to assist with the sales, if needed, but N7QHC Dan & I, KC7YYB are planning on doing some traveling, since our kids both live across country from us. Those grandkids grow up too fast to risk missing seeing them at least once or twice a year!

Suffice it to say, that's why you will be needing to find a new Chair, for my position in the upcoming election, in March. Just a reminder, be sure to bring your \$\$ for this month's drawing. You've been great supporters of this addition to the meetings. Thank You all for encouraging me in the endeavor.

73 Dawn KC7YYB

Public Service Committee Minutes

[The Public Service Committee did not meet in December.]

General Meeting Minutes-

December 16, 2006

The December meeting was cancelled due to the December Windstorm event, which visited us late Thursday, December 14, through Friday.

Facilities were unaffected directly, yet the conditions included widespread loss of power throughout much of the region. -Ed.

Board Meeting Minutes-

held January 3, 2007

Officers present:

x President – Sam Sullivan (N7RHE)
x Vice President – Carolyn Pasquier (WV7Q)
x Secretary – Dick Radford (WA7NIW)
x Treasurer – Jack Grimmett (N7IHS)
x Activity Manager – Dawn Humphrey (KC7YYB)
x Radio Officer – Paul Roth (N7DOH)

Trustees present:

x No. 1 – Brendan Burget (KD7IKV) COB
x No. 2 – Pam Bryan (N7PRS)
x No. 3 – Guy Molinari (N7ZG)
x No. 4 – Steve Cook (KD7IQL)
x No. 5 – Frank Tate (NA7O)

Visitors in attendance: (None recorded.)

Chairman Brendan called the meeting to order at 7:01p.m. at Galliano's Cucina in SeaTac, Wash.

Minutes: A motion to approve the minutes of the previous board meeting, was made by Sam N7RHE and seconded by Pam N7PRS. Motion passed.

Officer Reports

Chairman of the Board – Brendan KD7IKV:

President – Sam N7RHE: Vice President needs to get Membership longevity certificates ready for the awards banquet.

Vice President – Carolyn WV7Q: New applicants: Ronald B.Stein W7GAX. Approved by the Board, to be recommended to the Club at the next General Membership meeting. Carolyn also has the new pins that will be given to new members, and will be available for purchase to the members for \$3.00. Really nice pins.

[Continued on Page 4]

January 2007

Board Meeting Minutes...*[Continued from page 3]*

Secretary – Dick WA7NIW: Nothing new to report at this time.

Treasurer – Jack N7IHS: The budget will be ready at the end of the month. The CD was renewed for a period of 13 months instead of a year as in the past to get a better interest rate.

Activity Manager – Dawn KC7YYB: We will have different colors of tickets for the raffle in 2007. Year end raffle to be held at the January meeting.

Radio Officer – Paul N7DOH: Tiger Mountain was without power for a week during the outages. Squak was not, due to having a generator. All the bits are available for putting the repeater up on Tiger, with the possible addition of a nice large battery.

Committee Liaison Reports

Webmaster -- Jim reports that the web page is doing fine.

Facilities – Brendan KD7IKV: The closet will be cleaned out when Brendan gets to a meeting early.

Strategic Planning – Frank NA7O: Nothing new to report at this time.

Technical – Steve KD7IQL: Nothing new to report at this time.

Public Service – Pam N7PRS: Nothing new to report at this time, not much going on right now.

Education – Guy N7ZG:

Field Day – Brendan KD7IKV / Steve KD7IQL: Results, 19th over all, 3rd in our class, 1st in the State. It was noted that had our score from 6A had been submitted in class 7A, we would have won.

Awards Banquet – Scott KC7UOC: Date in April to be confirmed later. The Awards committee has made most of their decisions, Flea Market is still undecided due to not having taken place as of this time.

Old Business-

Regarding the MOU. Frank NA7O moved that we decline to participate in the MOU. Motion seconded by Guy N7ZG. Motion failed.

Guy N7ZG moved that we should send a letter to ARES asking them to sign Draft 6 with the omission of item 5 under Recommended Areas of Cooperation. Seconded by Dawn KC7YYB. Motion passed.

New Business-

Guy N7ZG had information regarding the new FCC R&O, dropping the Morse requirement for access to HF bands. His question had to do with what direction the Board thinks we should move in regards to Education. It was suggested that we have a class to prepare people for obtaining the General Class license. It was also suggested that we continue with the Technician

K7LED Relay

level classes. Guy will write an article for the Relay to find out the opinions of the membership.

Sam N7RHE made note that January is the first meeting where nominations will be open for club offices.

Good of the Order- Nothing for the Good of the Order.

There being no further business, Pam N7PRS moved for adjournment. Motion Passed and Chairman Brendan closed the meeting at 8:29 pm.

Attested: Dick Radford WA7NIW -- Secretary

Are You A Member With A Voice?

by Carolyn Pasquier WV7Q

The Mike and Key Club is intended to be a "Member-Run" organization. This was accomplished by changes made to the bylaws in the early 1990's. At that time, 5 Standing Committees were established and each was given a Board representative to relate their ideas, needs and financial requirements to the club's Board of Directors.

This system was developed to ensure that the club's direction was always determined by the largest number of members possible. The only way this method can be successful is if we have an involved membership. If each member helped on just one committee, the club could meet the needs (and wants) of the most members.

So, I would ask that you review the purpose of each of the 5 Standing Committees and determine where you can make a difference. Contact the Board Liaison for that committee and make your interest known. If each of us can support just one special interest that's important to us, we can keep the Mike and Key moving forward.

AMATEUR SPECIAL TECHNICAL INTEREST

(Board Liaison, Steve Cook KD7IQL 206 781-2293 kd7iql@arrl.net)

1. Organize and coordinate Special Interest Groups
2. Maintain awareness of advances in technology and new products
3. Provide Major Technical Information and Support
4. Address all special Amateur operating interest modes: CW, Phone (SSB, AM, FM, SS), Digital Modes (RTTY/AMTOR/Packet, HF, VHF, UHF), Satellite Operations, SHF Operations (Microwave, Optical), ATV
5. Support and Maintain K7LED Mike and Key Amateur Radio Club Repeater Facilities
6. Collect & Disseminate Info On Current Amateur Regulatory Interests (FCC, State, Municipal)
7. Provide Interference Activities

[Continued on page 5]

January 2007

...**Member with a voice?** [Cont'd from page 4]

8. Address Amateur non-operating Technical Support
 - a. Antenna Structures Design & Construction
 - b. Station Design and Implementation
 - c. Station Operating Safety Assurance
 - d. Electronic Circuit Design & Implementation
 - e. Computer Resources Design & Implementation
9. Provide guidance and direction for interested parties toward various special interests

PUBLIC SERVICE

(Board Liaison, Pam Bryan N7PRS 253 661-7882 glacialview@att.net)

1. Disaster and Emergency Response Coordination
2. Field Day Coordination
3. Special Operating Events Coordination

EDUCATION AND TRAINING

(Board Liaison, Guy Molinari N7ZG 253-630-2992 guy_molinari@hotmail.com)

1. Amateur License Training
2. "Elmering" Coordination
3. General Technical Information and Support
4. Amateur Safety Awareness Training
5. Emergency and Disaster Preparedness Training
6. Volunteer Examinations and Examiner Training

STRATEGIC PLANNING

(Board Liaison, Frank Tate NA7O 206-762-4732)

1. Responsible for long-range (5 yrs and above) and short-term high-level organizational planning for the Club as a whole
2. Develop the Club vision, mission, goals, and objectives that complement its Constitution and By-laws
3. Track and report Club performance towards established goals and objectives
4. Provide recommendations toward maintaining established Club direction
5. Provide limited process analysis and reporting support for other committees and subgroups

FACILITIES AND PUBLICITY

(Board Liaison, Brendan Burget KD7IKV 425-774-1946 kd7ikv@arrl.net)

1. Monthly General Meeting Facilities Coordination
2. Field Day Facilities and Publicity

K7LED Relay

3. Flea Market Facilities and Publicity
4. Fund-Raising Activities
5. Domestic and International Publicity
6. Weekly Wednesday Night NET

Microhams Digital Conference

(incorporating the NWAPRS Winter Gathering)
by Scott Honaker N7SS

Date: February 24, 2007

Location: Redmond, WA (Microsoft Corp. campus)

Time: 9:00 to 17:00+

Lunch: Subway sandwiches (provided)

After Event: Beer and Pizza (local pizza place, TBD)

Cost: \$10.00 – Covers cost of hosting & lunch

Door Prizes: Donations from Icom, MicroHams, etc.

This years NWAPRS Winter Gathering is going to be hosted by the Microhams Radio club and will be held on the Microsoft Campus in Redmond, WA. It was relocated closer to Seattle as a result of comments made after last years Winter Gathering. Following the well received example of last years event, the agenda this year will again cover many different areas in digital communications. We are still finalizing the list of topics but here are some of the sessions already confirmed.

Sessions

- Beginning APRS Presentation
- 9600 APRS Network
- Introduction to the D-Start system and demos
- New Amateur Technology – NSLU2 Herb – KB7UVC will be EmCee.

If you are interested in speaking, please contact Bill Vodall - WA7NWP.

(<mailto:wa7nwp@gmail.com>) We still need speakers and suggestions for topics.

Because of space limitations and parking requirements, we are requiring pre-registration for the event. (Please see note below for details) In addition to the presentations, a demo area will be setup along side the conference space and door prizes donated by different manufactures will be given away. If you are willing to setup a demo on your favorite APRS or packet or any other digital station, please contact Mike Mraz - N6MZ.

(mikemr@clearwire.net)

[Continued on Page 6]

Registration Details

Due to the requirements for hosting the event on the Microsoft campus, we are required to register all the vehicles that will be parked on the campus ahead of time. So in addition to registering for the event, we must also collect some basic information about the vehicle which you'll be parking on the Microsoft campus. No registration will be considered complete until all required data is provided. Warning: If you do not provide the required the pre-registration information, including the particulars on the vehicle, you will not be allowed access to the Microsoft Campus!

The registration fee will be collected at the door when checking in. If you would like to pre-pay the registration fee, please indicate so when you send your registration e-mail for the event. Details will be provided at that time.

Please send the following information to registration@microhams.com

- Full Name
- Call sign (if licensed)
- Make, model, color and year of vehicle
- License plate number and state issued

NOTE: The primary parking for the event is in a covered parking garage located next to the conference building. For vehicles with large HF antennas there is an open air parking lot available just down the street. (Less than a 5 minute walk) More details will be provided when you register.

For more information, please contact n7ss@arrl.net or check: <http://www.microhams.com/softcontent.aspx?sclid=43>.

Hope to see you at this years Microhams Digital Conference/NWAPRS Winter Gathering,
-- Scott N7SS

Are You A Writer?

by Gary Bryan KG7KU

If you have ever considered dabbling in some creative writing... or if you have come across some material that you feel other Hams would be interested in, be sure to drop me a line for consideration in its inclusion in the Club Newsletter. Email: kg7ku@arrl.net

Special Insert from...

the ARRL NW Division Newsletter

TO: Northwestern Division ARRL Members

SUBJECT: January 2007 Newsletter

Happy New Year to ARRL Northwestern Division members. I hope you are enjoying the first few days of 2007 in spite of the ugly weather we are experiencing here in the Pacific Northwest. Just think, we could be in Colorado!

I work for a company that manufactures rocket engines for NASA and other aerospace firms. Earlier this week, I attended a presentation by an Astronaut (a licensed ham) who talked about his training. He noted that the most important attribute of the astronaut corps is team-work. I hope that we, as licensed Amateur Radio operators, can work together as a unified team on behalf of the Amateur Radio Service and our wonderful avocation.

Division Website URL After the Division newsletter was distributed in October, I received feedback requesting information about the URL for the Division website. This web site can be accessed via the ARRL.org URL (follow the links to the Division) or direct via <http://mysite.verizon.net/~res0nuqa/> .

Thanks again to Rodger KK7LK and Michael KG7HQ for their able assistance with development and maintenance of the website.

FCC Actions

As you undoubtedly know, the FCC implemented the Report and Order which restructuring some of our bands. The most controversial aspect is the 80-meter expansion of the phone band to 3600 KHz. Following review and input from members, the ARRL requested a modification of the R&O to allow digital from 3600 to 3635 KHz. The FCC maintained their confused logic and extended the digital section from 3600 to 3585 KHz. It appears they didn't think about or even realize that nets
[Continued on Page 7]

January 2007

ARRL NW Div. Newsletter... [Cont'd from p.6]

and other activities occur in this range. But, given the logic (?) applied by the FCC during the past few years, I guess we really shouldn't be surprised. During the holidays, I listened on these new frequency allocations and heard only a few US signals. Time will tell if and how this new phone allocation will be used.

Then, in December, the R&O eliminating the CW requirement was issued. This new policy should go into effect in January. I preferred maintaining a CW requirement for the Extra Class License and voted as such a few years ago when the ARRL filed its comments. But, in its quest to simplify most aspects of the Amateur Radio, the FCC determined it was in the 'public interest & quot; to eliminate CW entirely as a condition for all classes of licensure. Soon there will be a number of new licensees on the bands without having experienced the CW requirement. Please welcome them to Amateur Radio and assist them as they learn to participate in our hobby the same manner most of us were welcomed when we first started as hams. Remember, they took the time to study and pass the various exam elements to reach a class of license and thus, they have an interest in joining our ranks. Consider how much you learned from the time you first became licensed to the present. Be an ELMER.

Finally, the FCC dismissed the complaint from Manassas, VA hams using the logic that the BPL system there complied with current interference criteria. If you have been following this issue, you know that complaints weren't even notified about technical tests and locations from which the FCC based their decision. This is one of the first times the FCC allows unlicensed entities to legally interfere with licensed services! Because of this and other similar issues, the ARRL Board determined an appeal in the Federal Appellate court is justified. As you might imagine, this is a very costly appeal process. I believe this filing shows that we disagree with their possibly illegal action.

Please consider donating to the Save Our Frequencies Fund, coordinated by the ARRL's Development Department.

ARRL Foundation Scholarships and Teachers' Summer Workshops The ARRL Foundation (were I also serve as a Board Member) just announced the scholarship program for 2007 along with the requisite deadlines for application. See <http://arrl.org/arrif> . There are thousands of dollars of scholarships available to

K7LED Relay

young college and tech-school bound licensed hams. It was both gratifying and an honor to review the applications last year and recommend scholarship awards to many talented young people. Do you know that a teachers' workshop was conducted for the last five years, helping teachers integrate electronics and ham radio studies into their classrooms? This is a wonderful program that has seen many positive results for young people. You can participate in these programs by donating or creating a bequest to fund these and other programs. Visit <http://arrl.org/development> for further information.

... [Portions intentionally removed -Ed.] ...

Now some thoughts from our Northwestern Division Vice Director, Bill Sawders, K7ZM.

It's the beginning of a new year with new challenges. I have heard very little feedback on the FCC decision to increase the size of the phone bands. The dropping of the code requirement came as no surprise as most countries had already led the way in doing so. The big challenge will be our ability to protect our frequencies from pollution produced by BPL, Broadband over Power Lines. With the FCC staffed by 'political liberals' with an 'anything goes' attitude, Amateur Radio, as we know it, could certainly be on the decline. The ARRL is standing up to these 'from bad to worse' commissioners and will do whatever is possible to protect our spectrum.

The FCC is heading in the wrong direction and our hobby is at risk. You can help with a generous contribution to the ARRL Spectrum Defense Fund. On a 'brighter' side, Dr. David Hathaway of the Marshall Space Center announced at the American Geophysical meeting in San Francisco, that solar cycle 24 might be the most intense cycle in the 400 years of monitoring. When I was first licensed, in 1957 (50 years ago!), I can remember working Europe on 10 meters with a dipole in the attic! Solar cycle 24 is supposed to 'peak' in the year 2010 or 2011. My wife, Vicki, K7VKI and I are looking forward to seeing and meeting you at the various hamfests and swapmeets in the year ahead. And again, please help all Amateurs, by supporting the ARRL in protecting our frequencies. By doing so, we can all look forward to the enjoyment that Amateur Radio provides... for years to come!

ARRL Northwestern Division
Director: James Fenstermaker, K9JF
